NORTHERN NEW MEXICO COLLEGE

INTRODUCTION

The Northern New Mexico College Enrollment Report is an analysis of the first of the term data. This document is compiled by the Office of Institutional Research in order to inform Academic Department Chairs primarily regarding the current semester student enrollment and course loads. It is intended for both planning and strategic decision making. This report is prepared at census date (3rd Friday), and focuses on first 8-week, and 16-week enrollment. In this report Humanities and Social Science and Arts, Film and Media are combined and named as Arts, Humanities and Social Science. One addition table “Enrollment by High School (Dual Credit Students)” added in this report to capture dual credit students’ enrollment from different high schools.

The data in this publication is compiled using the most recent enrollment, schedules, and faculty assignments. All data is collected and maintained using Banner. The intent of this report is to provide an accurate and consistent reference for use by various internal and external stakeholders as well. This effort intends to not only provide quick and easy access to institutional data but also to open-up new ideas and questions. If you have any questions or comments regarding this report, please feel free to contact us by email at rishi.poudyal@nnmc.edu .

Distribution of total SCHs enrolled by each student

Graph 2: Histogram of the Student Credit Hours per student (the vertical axis is the number of students). Students who take between 12 and 18 credits are only charged tuition for the first 12 credits. Because of this distribution and the attendance of dual credit students, only **89%** of the SCHs generated are eligible for tuition. Employee tuition waivers decrease this number even further.
